BEFORE PURCHASING ELSEWHERE.

Respectfully Yours,

HOLDEN BROTHERS.

H. F. LEONARD, HARDWARE & GLASS, Stoves and Ranges, CLOTHES WRINGERS, House Furnishing Goods, BUILDERS' HARDWARE, DOORS & SASH.

MAUNDER'S PATENT IRON HARROW

Farmers examine this Harrow before purchasing any other. The best Harrow in the world for the following reasons: 1. It is the strongest of the same weight. 2. It is the lightest draught. 3. It has steel teeth instead of iron. 4. The teeth are driven through a malleable clip fastened around the bull, thereby strengthening the bar at the same time.

No holes punched through the bars to weaken them. No nuts to rattle loose. No shoulders on the teeth to weaken them as in the old iron harrow, thereby making the

STRONGEST, LIGHTEST, MOST DURABLE & CHEAPEST Harrow on the market. The teeth can be sharpened for one-half the price of nut teeth and being of steel will last much longer. We make two sizes 45 and 60 tooth. Manufactured and for sale by

JAS. COGLEY, - EMMET, MICH.

where also will be found the best Broadcast Seeders, Cultivators, Land Rollers, Steel and Cast Plows, for sale cheap. Come and see our stock or write for prices. Samples of Harrow may be seen at Harris' carriage works Brockway.

Strictly for Cash!

and give you the best value for your money. Everything as Represented. Boots & Shoes made a Specialty. Highest Price allowed for Butter and Eggs.

J. D. McKEITH, - SPEAKER, MICH.

CORRESPONDENCE.

Minden City.

On Sunday last, to Mrs. Gertsmeier, a daughter.

Miss Lloyd has returned home from her visit to her brother in the northern part of the state.

Herbert Albot, late of Pt Huron, now of Lexington, and Miss Melsaue, of this city were married on Sunday last by A. N. Johnson.

On Saturday, the following nominations were made: Supervisor, T. O'Hare; Clerk, T. O'Rourke; Treasurer, M. O'Connor; Justice of the peace (full term), O. Kerr; Highway Commissioner, J. Schwartz; Drain Commissioner, John Denmark; School Inspector, Wellington Wilson; Constables, R. Brown, John Kayting, Melvin Wikom, James Deegan.

Facts from Fargo.
Surprise parties seem to be getting general.

The citizens of this place deemed it necessary to construct sidewalks on all the principal streets in our village, consequently a board of Aldermen and Mayor were chosen and sidewalks laid from D. Mulligan's to Lohr & Son's grist and saw-mill.

Died on the 25th, at the residence of J. W. Tebble, Harrison Farr, aged 69 years. Services were held in the M. P. church at this place, Rev. J. R. Chaplin officiating. The remains of the deceased were interred in the Crosswell cemetery.

Also Mrs. Fred Lutwiche, of Chicago, attended the funeral of their father.

The K. O. T. M., of this place, lately organized, number 23. Prospects are good for as many more in a short time.

Nicholas Vogel of this place is an employee of Mr. Martin, of Grant Centre as blacksmith.

Valley Centre Vapors.
Election next Monday.

A great variety of weather at present. Mr. Raymond, of Weshburg, is visiting his brother in this place.

W. J. Makelin and wife started for Nashville, Tenn., last Saturday night.

E. W. Beckett, in partnership with his brother, will engage in the saw-mill business in Mountmorenci Co.

At the caucus last Saturday the following persons received the nomination for the several township offices: Supervisor, J. H. Beckett; Clerk, T. Sullivan; Treasurer, Frank Snyder; Highway Commissioner, John Laraby; Drain Commissioner, Mark Fields; Justice of the peace (full term), Dr. Lister; to fill vacancy W. P. Webb; Constables, M. Snell, E. W. Beckett, W. H. O'Neil and E. Parrish.

Next Monday will seal the fate of many a local candidate. Aspiring his name to be elected.

Above his opponent—at any rate.

Kit Karson.
Brown City Budget.

The roads are commencing to dry up. Elder Kreutziger is attending the Mennonite conference at Jordan, Ont.

The band serenaded the City Tuesday night. The boys are progressing finely.

All the old township officers were re-nominated here with the addition of Dr. Lister and Mr. Cottingham for justice of the peace.

There is a war of cheap prices going on here at present. Flaming hand bills breathing forth vengeance to printers, teas, &c., seem to be the order of the day; and behold the end is not yet.

The Literary Society continues to attract large audiences Friday evenings. The last meeting, after a pleasing program, the respective merits of Art and Nature were discussed which resulted in a victory for Art. The utmost harmony seems to prevail in those meetings which is a credit in itself.

Another distressing accident has occurred in our midst. Three of H. Hovey's children were poisoned last Tuesday afternoon, by eating wild parsnip, which they found growing in the garden. After suffering terrible agonies, the little boy died in the course of a few hours; and at night the two girls were pronounced out of danger.

Fremont Fragments.
Rain, mud, snow, wind and sunshine, March weather truly.

The cheese factory is undergoing some repairs and will be at work on time.

Lexington has another railroad scheme, some of our folks think it is sure-to-be-a failure.

It is said that one of Egypt's sights is a donkey and a woman yoked together for the purpose of ploughing. Fremont's attractive pony and a gallopway bull harnessed together, which are said to be a gay and "attractive" team.

Our town has lost two of its oldest inhabitants, this winter. Mrs. Spring, relict of the late Abram Spring departed this life a few weeks ago. She, with her husband and family, settled here about thirty years ago. Also Mr. Geo. Woods, a few days after, aged 94 years.

Both were well spoken of by all who knew them, and died in full hope of a better inheritance. They each left a large concourse of relatives, who have the sympathy and well wishes of their many friends.

Roseburg contemplates the advantages of a "meeting" house in the near future. Over one thousand dollars has been subscribed and Mr. McIntyre one of our live merchants has generously offered land north of his building, which has been accepted for a site. We hear that a building committee has been elected, and probably when plans are fully matured they will give our esteemed EXPOSITION a chance to advertise the letting. We have no doubts about it if its worthy editor will only "grease their palms" with a nice little subscription. By the way we heard different individuals at the meeting, saying they had given aid at different times toward Brockway Centre churches and they thought "we" ought to get a little in return. But these fragments are getting more lengthy than was intended.

Capac Capers.
James E. Cavanaugh, of Vassar, spent Sunday in town.

Miss Bina West is visiting relatives in St Clair this week.

Benj. Seidell has erected a nice barn on his farm west of Capac.

Mr. and Mrs. Robt Leach are visiting their son Davey Leach, at Minden.

T. W. Showler, of Arkona, Ont., will take possession of the Hebben farm about April 1st.

Chester Williams was elected Superintendent of the Baptist Sunday school vice. Wm Roy resigned.

A sugar social will be held at the town hall on April 6. Proceeds to be applied to the Baptist Sunday school fund.

A number of young folks assembled at the residence of Robt A. Glassford on Monday evening. A pleasant time is reported.

Dan Lewis left Monday evening for Durand. A few weeks ago he purchased the "Downey House" at that place. He takes possession immediately. Dan will make a genial, wholesome landlord. The right man in the right place. We wish him and family prosperity in their new home.

We are just now upon the eve, of another township election. The candidates for the position, is not to be trusted. On the Republican side we hear the names of Wm. Chapman, Wm. Hunter, C. Williams, S. S. Warn and Albert Tosch prominently mentioned for supervisor, with odds in favor of William Hunter. On the Democratic side R. D. Shutt and Graham Alder are to the front.

Take What You Need.
Therefore see that the members of your family are supplied with Dr. Jackson's root and herb cordial; it will sharpen the appetite, help digestion, promote sound sleep, strengthen the system and so remove those distressing symptoms which if neglected, may result in the most serious consequences. For sale by W. N. McKenna, Brockway Centre, and M. Wagner, Brockway.

Very Remarkable Recovery.
Mr. Geo. V. Willing, of Manchester, Mich., writes: "My wife has been almost helpless for five years, so helpless that she could not turn over in bed alone. She used two bottles of electric bitters, and is so much improved, that she is able now to do her own work." Electric Bitters will do all that is claimed for them. Hundreds of testimonials attest their great curative powers. Only 50 cents a bottle at C. A. Wells & Co's drug store.

1886. 1886.

AGENTS WANTED.

THE IMPROVED Fountian City Broad-Cast Seeder AND Cultivator MANUFACTURED FOR ANDERSON & COMPANY.

We desire to call particular attention to the Fountian City Broad-cast Seeder and Cultivator combined. In doing this we are not taking the chance that usually attend any new or untried implement, as the "Fountian City" has been in popular use for the past ten years, being added to and improved during that time until now we consider it perfect in every detail.

The following good points will be readily appreciated:

FIRST.—It will sow wheat, rye, oats, barley, buckwheat, peas, hemp, broom corn, flax, and timothy and clover in any desired quantity without change of gear wheels.

SECOND.—It has a positive double set of force feed, and will sow more evenly than any other Seeder in the market.

THIRD.—It is the only Seeder that will sow three bushels of oats to the acre when desired.

FOURTH.—It has steel teeth, made of the best material, and will last twice as long as the ordinary steel point.

FIFTH.—It has a reversible leg with points on both ends, and made from the best quality of steel, giving several times the strength and wearing capacity of most seeders, and twice as much as in any seeder in the world.

SIXTH.—It will sow or cultivate at the same time, or can be changed instantly to either or both without disarranging any of its parts.

SEVENTH.—It has six seeders attached by springs so that they return to position when passing an obstacle, thereby saving breakage and expense and a great annoyance to the user.

EIGHTH.—It has a wrought iron axle extending from one wheel to the other, and effectually prevents the seeder from swagging down in the centre, as is the case with many other seeders.

NINTH.—It has the simplest and easiest lifting arrangement in use. Any boy that can drive a team can lift the teeth by pulling down the lever.

TENTH.—It has double steel drag bars, the sides of the bars forming a clamp to hold the teeth firmly in position, and all teeth are set zig-zag and do not clog in rough and weedy ground.

ELEVENTH.—Its teeth are not held in position by wooden pins but by good strong iron clamps, which give away after certain pressure brought against the teeth. Each tooth is independent and can be set at any desired depth.

TWELFTH.—Its gearing is so arranged that when wheels move backward it throws the feed out of gear and will not sow when the teeth are out of the ground. All seed boxes have sheet iron bottom arranged to feed all grains out of the seed box clean.

TO OUR FARMER FRIENDS.
Buy the Improved Fountian City. It is the best in the market, made from the best of iron, steel and wood money can buy. Has features peculiar to itself and that cannot be found on any other seeder in the world.

THE BEST IS THE CHEAPEST.—Buy the latest and secure the improvements. No more wooden pins and cast iron. No more single teeth; the Fountian City has two sets for the same money. The Fountian City has been extensively sold in Wisconsin, Minnesota, Michigan, Indiana, Illinois, Iowa, Kansas, Missouri Nebraska, and Dakota for ten years, and has gained a reputation second to none. They are sold entirely upon their own merits and are warranted in every respect, and that no seeder can equal them.

REED'S ORIGINAL KALAMAZOO SPRING TOOTH HARROW.

The long contested infringement cases in regard to this harrow, have at last been decided in favor of D. C. & H. C. Reed, who originated and patented this valuable harrow principle. Such being the case, no other spring tooth harrow will be offered to the public. We have recently perfected arrangements, whereby we have the exclusive sale of these harrows for St. Clair, Sanilac, Huron, Tuscola and Macomb Counties.

STUDEBAKER FARM WAGONS.

We have already sold over five thousand of these celebrated wagons, and have yet to learn of one wagon that has proved unsatisfactory to the purchaser.

All wagons warranted in every particular.

WATERLOO SPRING WAGONS AND CARRIAGES.

It affords us great pleasure to call the attention of our numerous patrons to this line of vehicles. Having sold several hundred of these carriages during the past three years, and with great satisfaction, we have decided to make them one of our specialties. To this end we have recently placed in stock a large and complete assortment.

Yours, Very Respectfully,

ANDERSON & CO.
